ROPE 3-IN-1 USB CHARGING CABLE

Product description

The Rope charging cable features a braided cable, which is complimented by anodized aluminium trims. These extra long cables measure in at 1.2m in length, so there is plenty of cable to use your phone whilst charging. The anodized aluminium trim can also be branded with your logo in either traditional pad print or a contemporary laser engraved finish.

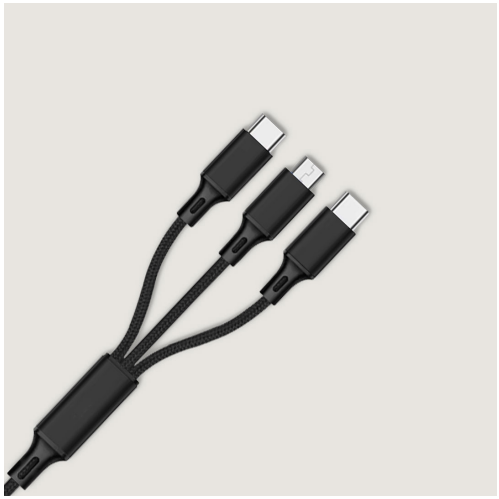

As standard the braided USB cables come as a 3-in-1 charging option. The charging adaptors include Type-C, Micro USB and Lighting.
